OBJECTIVE

Experienced software engineer with 5+ years in full-stack fintech application development, specializing in scalable systems and Agile team leadership. Proven ability to deliver robust solutions for millions of users across banking platforms. Currently pursuing a Master of Computing at ANU, with interests in AI/ML integration and cloud-native architecture. Seeking software engineering and machine learning roles to drive innovation through high-impact systems design.

EDUCATION

Australian National University

Canberra, Australia

Master of Computing

February 2025 – November 2026 (expected)

- GPA: 6.50 / 7.00
- Coursework: Algorithms, Machine Learning, Structured Programming, Discrete Mathematics

Institut Teknologi Bandung

Bandung, Indonesia

Bachelor of Science in Engineering

August 2015 – September 2019

- GPA: 3.43 / 4.00
- Coursework: Numerical Methods, Data Acquisition & Analysis, Mathematics, Statistics
- Teaching Assistant of Introduction to Information Technology course

PROFESSIONAL EXPERIENCES

NatureHelm Pty. Ltd.

Canberra, Australia

Software Engineer

July 2025 – Present

Developed the NatureHelm platform for biodiversity monitoring as part of a Master of Computing internship at ANU, worked with React for front end and NestJS/PostgreSQL for backend.

PT Bank Danamon Indonesia Tbk.

Jakarta, Indonesia

Software Engineer

June 2023 – June 2024

- Delivered new D-Bank PRO features (cashless withdrawal, gold investment, and auto-financing) across Angular/React frontends and Java Spring/Node.js/PostgreSQL services, contributing to a 30% YoY increase in user base.
- Built a back-office automation platform, reducing manual workloads by 25%.
- Initiated revamp from Cordova to native Android (Kotlin) and iOS (Swift).
- Pioneered code quality and unit tests in repositories, increased test coverage to 90%.

PT Bank SMBC Indonesia Tbk.

Jakarta, Indonesia

Technical Lead and Full-stack Engineer

October 2019 – June 2023

- Led a 15-member team delivering Jenius wealth management features (priority banking, mutual funds, and insurance) on React Native, Node.js, and MongoDB for 5M+ users.
- Collaborated with international partners for new system integrations and standardisations.
- Architected microservice and data models for the wealth domain, enabling the launch of mutual fund investments that onboarded 20,000 investors and generated IDR 3B transactions in the first month.
- Collaborated with R&D to introduce distributed GraphQL layer and frontend clean-code conventions improving scalability, code reuse, and developer productivity.

PROJECTS

- Freelance Full-stack Engineer** at Bank SMBC *Jakarta, August 2024 – February 2025*
Developed and optimised the investment and insurance features in Jenius app and its microservices.
- Freelance Full-stack Engineer** at Mola *Jakarta, July 2024 – August 2024*
Developed Shopify ecommerce and PHP landing page for Como 1907 Italian football club.
- Part-time Senior Frontend Engineer** at FitHappy *Jakarta, April 2022 – September 2022*
Released first iOS app with React Native that helps 500+ users start their wellness journey.
- Co-founder of EduLens** *Bandung, May 2018 – September 2019*
Built an ed-tech startup to assists students in university admission and received funding from the Ministry of Technology and Institut Teknologi Bandung's startup bootcamp and competitions.

LANGUAGE AND TECHNICAL SKILLS

Languages: Indonesian - Native, English - Advanced (CEFR C1)
Programming: JavaScript, TypeScript, Python, Java, C++, PHP, HTML5, CSS, Shopify Liquid
Backend: Node.js, Express.js, Kafka, MongoDB, Redis, PostgreSQL, GraphQL, Flask, Spring
Web & Mobile: React.js, Next.js, React Native, Flutter, Angular, Tailwind, Android, iOS
DevOps & Tools: Red Hat OpenShift, Docker, Kubernetes, Jenkins, Git, JMeter, NewRelic

AWARDS & HONOURS

- LPDP Scholarship** *Ministry of Finance, Republic of Indonesia (2024)*
The Indonesia Endowment Fund for Education awarded a full scholarship for my postgraduate study at The Australian National University from a merit-based selection process.
- Ganesha Karsa Award** *Institut Teknologi Bandung (2019)*
An annual accolade recognising outstanding students in both scientific and social-societal domains.
- 1st Winner of Rekkinnovation** *PT Rekayasa Industri (2018)*
- 1st Winner of Bursa National Business Competition** *Universitas Brawijaya (2018)*
- 2nd Winner of Computer Science Innovative Challenge** *UMN (2018)*
- Winner of DBS Live More Society: Developer Challenge 2** *Bank DBS (2018)*
- Winner of Microsoft Azure Mobile App Service Challenge** *Microsoft (2018)*

CERTIFICATIONS

- Scikit-Learn for Machine Learning Classification Problems** by Coursera (2024)
Build a Machine Learning Web App with Streamlit and Python by Coursera (2024)
Typescript in React: Higher Order Components by Coursera (2024)
Containerize a full-stack NodeJS application in Docker by Coursera (2024)
Build a MERN Application Using Next.js by Coursera (2024)
DevOps Foundations by LinkedIn Learning (2022)
Certified Risk Manager Level 1 by Global Association of Risk Professionals (2020)
Associate Android Developer by Google Developers with Scholarship (2018)
